Professional Experience

Software Developer & Technical Writer   **2023 - Present**
AlignTogether Solutions Pvt. Ltd., Bhopal, M.P.

- Built backend systems using Java & Spring Boot for enterprise platforms.
- Conducting manual testing of Dalmia's web/mobile apps (Suvidha, SmartD Pro App etc.).
- Created comprehensive documentation for web and mobile apps, including API specs, flow diagrams, sequence diagrams, and Swagger documentation, improving usability and onboarding.

Projects

Dalmia CSR Application

- Developed backend services using Java Spring Boot and MySQL, ensuring efficient business logic execution.
- Designed RESTful APIs for seamless integration with Flutter-based mobile applications.
- Documented technical specifications and endpoints to support clear project understanding and maintenance.

Dalmia Projects – SmartD Pro Plus & Suvidha Web Portal (Manual Testing)

- Performed manual testing across multiple Dalmia applications, including SmartD Pro Plus app, Suvidha Web Portal etc.
- Designed and executed test scenarios for both web and mobile platforms, ensuring coverage of business-critical flows and improving product quality.

Dalmia Technical Documentation (Technical Writing)

- Created technical documentation for web and mobile applications, including API specifications, app flow diagrams, sequence diagrams, and Swagger documentation, while working on-site at the Dalmia office in Noida.

Bulkvan Logistics Pvt. Ltd.

- Managed and supported the project, ensuring uninterrupted operation and effectively resolving any issues that surfaced.
- Proactively addressed client requirements and implemented necessary changes to meet their needs.
- Collaborated with end users and cross-functional teams to gather and analyze requirements, translating them into technical specifications, system design and actionable tasks.

Eko India Financial Services

- Contributed to the development of scalable and high-performance web application using Java, Struts and Hibernate.
- Developed RESTful APIs to improve application functionality and integrated APIs for seamless integration.
- Collaborated with clients to gather requirements and implement system improvements.
